Journal - Office of Legislative Counsel
Wednesday - 25 October 1978

Page 3

11. [REDACTED] LIAISON Received a call from Marty Faga, House Permanent Select Committee on Intelligence staff, who said that Representative Bill Burlison (D., Mo.) was released from the hospital today but there was no further word on his condition.

12. [REDACTED] LIAISON Guy McConnell, Senate Appropriations Committee staff, called to ask if we could supply Caroline Fuller, of Senator Walter Huddleston's (D., Ky.) staff, with unclassified answers to two questions: (1) when did the Soviet Union develop MIRV warheads; and (2) when did the U.S. and the U.S.S.R. first deploy delivery vehicles for MIRVs. I asked [REDACTED] CSS/NFAC, to handle this by phone.

13. [REDACTED] LIAISON Per her request, sent a copy of the publication entitled "Relating Climate Change to Its Effects," dated August 1978, to Sharon Hersley, House Committee on Science and Technology staff.

✓ 14. [REDACTED] LIAISON Called Thomas K. Latimer, Staff Director, House Permanent Select Committee on Intelligence, and Herbert Romerstein, of the Committee staff, several times in efforts to straighten out details of the planned trip to Europe of Representatives Romano L. Mazzoli (D., Ky.) and John Ashbrook (R., Ohio). What emerged is that there will be two separate trips having little or nothing to do with one another. Representative Mazzoli's trip will be a familiarization trip while Representative Ashbrook's will be to look into terrorism. It is quite possible that neither trip will materialize.

15. [REDACTED] LIAISON Called Dorothy Fosdick, Permanent Subcommittee on Investigation Staff, Senate Governmental Affairs Committee, in response to her inquiry for biographic information on Soviet Deputy Minister of Defense, Vitaly Mikhaylovich Shabanov. After hearing my resume of the information she requested that in two or three weeks we take another look at Mr. Shabanov's activities and report back to her.
